Assault Awareness and Prevention for Transit Operators Training for the Transit Industry

The Federal Transit Administration (FTA) has made available additional resources to support transit agencies as they work toward implementing the federal mask requirement while ensuring the safety of transit operators. With our partner, the National Transit Institute (NTI), FTA is providing training for transit bus operators on assault awareness and prevention.

NTI has opened [registration](#) for virtual offerings of the *Assault Awareness and Prevention for Transit Operators* course through March 2021. The course's goal is to provide transit bus operators with prevention strategies necessary to reduce the likelihood of assault incidents. The course includes updated learning activities and scenarios focused on passenger mask-wearing.

For questions about course registration, contact NTI via telephone at 848-932-1700 or email at nti_info@nti.rutgers.edu.
